

We have made slatwall *modular* to work for you...

Our slatwall planks are more flexible for your space. They are also easy and safe to transport.

Use two top/bottom planks with multiple centre planks and inserts to make slatwall panels of different heights. Each plank is 2400 wide by 400 mm high. Cut planks to size to get the correct width.

Talk to us about designing a slatwall solution to suit your space. We can also cut slatwall to size and install it.

The sides of slatwall planks are raw. Use S3605 or S3606 edging to cover them.
